## As One Goes Around

Because the victim was a little girl and the suspect was, in stories I had read, pictured as a sex pervert, I was taken a little off balance Wednesday when his attorney told me William Lindley was in court and he would like to have me talk to him. Some time later I sat with him and, for two hours, talked with the man the officers had sent to the death-house and whose reprieve Governor Earl Warren had refused. The suspect is alive today, only, because when Governor Warren left the State, Lieutenant Governor Fred F. Houser granted him a reprieve. The case got into the Supreme Court and the high tribunal designated Judge Donald Geary, of Sonoma county, to act as a referee and make a report to the Supreme Court after he had heard the facts. I listened to witnesses, I examined facts, and I talked with William Lindley. The condemned man is 50 years old. He has never been involved in a sex charge; by disposition the man is stolid, mentally slow. I asked him if he had ever had syphilis and he told me no. He drank generally when he was out. Originally his home was in Eastland, Texas, and he had done time at Leavenworth, Kansas, on charge of robbing a country postoffice. He had been sent to Mendocino State Hospital for the Insane, after his present arrest, likely to get a line on his mental condition—He is not crazy. The unfortunate man would, undoubtedly, have been in his grave at San Quentin long ago, had not a church organization taken up his case and gotten an attorney to fight for him. He told me many things, but we were in th Lodge, and I cannot repeat them, yet this I can say—He did not shield himself after his lawyer had told him I was all right. It looks like this to me: A monstrous crime was committed and a country sheriff fumbled the facts. A boy witness told an up and down story and too much faith was pinned on what he said. A friendless, almost feeble-minded man came under suspicion at the scene of the crime on Feather River and he was picked up. No scratches were on his face or hands, his garments were not disarranged; no blood was on his clothing. No other suspect was seriously considered. Probably his defense in court was half-heartedly gotten over and while I sat beside him I could detect the death-house odor off his body. I followed the Lindley case for months carefully; I sat and listened to the court proceedings today. I talked to the condemned man and I would bet The Republican Press against three gingersnaps Sutter county has the wrong man. I have gone over the record of the one, who probably is the killer. I have studied his photograph and carefully followed his criminal record. The years I was on the State Prison Board I always backed away from pleas of sex killers. In me no sex-slayer ever found a softie, hence I cannot be accused of standing up for William Lindley, but I am going to make this prediction: One of these days an apricot-complexioned young fellow, now being sought by the State Bureau of Identification, will be turned up and when he is, the reprieve granted William Lindley by Lieut. Governor Fred F. Houser, while Governor Earl Warren was outside the State, is likely to be approved 100 percent.

★ KEEP BUYING VICTORY BONDS ★

Everything connected with the Atom bomb has been overplayed for publicity purposes. The sending of a fleet to be destroyed reflects criminal extravagance. All the thousands of tons of steel on the ships to be bombed will be wasted and the entire sham demonstration should be abandoned, because, in the first place, it never should have been undertaken, yet, the unfortunate part of it all is, it seems likely it will be tried out. Squatted between Old Baldy, Lake Peak and Truchas mountains near Santa Fe, New Mexico, all towering above 12,000 feet, live the men and women at Los Alamos, where the government laboratory in which Atom bombs are made, is isolated, and they are about as active today as are the bomb projectiles they make when they are hurled against enemy positions for they have just learned they are legal orphans, stateless citizens of the United States at large. State officials claim residents of the military reservation which circles the mountain-top atomic-bomb plant are not eligible to vote in New Mexico, cannot establish residence in New Mexico, and are not eligible for divorce under New Mexico law.

In fact, they jist aint.

★ KEEP BUYING VICTORY BONDS ★

When Engineer Joseph B. Strauss, who built the Golden Gate Bridge, was in his heyday, constructing the great span, he and I ate breakfast every Friday morning at The St. Francis. I was closer to Mr. Strauss, probably, than any man in the country. I made his fights for him and I knew him, backward and forward. He was an idealist, somewhat of a dreamer with a wonderful mind. He had a hobby—he wanted to advance the better strains of youth. If he had any loose money Joe Strauss delighted in giving it to Boy Scouts and Boy Town ventures. I know he did a lot along that line and his big regret was he could not do more. The great Engineer was generous and much imposed on He laughed merrily at a clean story, loved good music and idolized children but, after all, my little dead friend actually got slight enjoyment out of life. I have come upon him, many times, to find him in gloomy moods. To me much of his sad life is known and will not be repeated. Despite all the hard knocks he had suffered his hope for mankind was ever high. It was a dreary, late October evening when in the doldrums—I know he was in despair, his mind, always strong in faith in God, he penned these wonderfully inspiring lines about the Redwoods:

**"The nations that with them were young,**
**Rich empires, with their forts far-flung,**
**Lie buried now,—their splendor gone;**
**But these proud monarchs still live on.**

**To be like these, straight, true and fine,**
**To make our world, like theirs, a shrine;**
**Sink down, Oh traveler, on your knees,**
**God stands before you in these trees."**

### SUBMIT LOW BID

### 2 Bad Accidents Near Willits In "Trying To Pass"

Special Correspondence of The Press

WILLITS, May 20.—Two accidents on the highway caused considerable damage to four automobiles but no serious injuries were received by any of the motorists involved. Cars driven by Lester D. Brodock, of Kingsman, Kansas, and Evelyn E. Rupnow, of Arcata, side-swiped near Hilvilla when Mr. Broderick attempted to pass two cars and a truck on a curve, according to Patrolman Hamilton, causing considerable damage to both cars. Mrs. Rupnow's car veered over an embankment after the collision and was kept from rolling down onto the railroad tracks 40 feet below by a tree that held her car. Mr. Brodock appeared before Judge Fred Foord and was fined $25 for driving on the wrong side of the highway and paid for the damages to the other car involved in the crash.

**Struck Head-On.**

A head-on collision occurred at the bottom of Oil Well Hill when cars driven by Glenn Palmer, of Long Beach, and Mrs. Doris Sanders, of Klamath, came together as Mr. Palmer attempted to pass a truck on a curve. Both cars were badly damaged in the collision and Mr. Palmer was fined $50, $30 of which was suspended, when he appeared before Judge Fred Foord on a charge of driving on the wrong side of the road and passing another vehicle on a curve. Mr. Palmer, likewise, paid for the damage to the other car involved in the accident.

## CONFERENCE A FAILURE AGAIN

### Eel River Lumber Co. Refuses To Accept "Closed" Shop

Special Correspondence of The Press

FORT BRAGG, May 20.—Reports received here are that, at a conference held between The Ukiah Pine Lumber Co. which operates a small mill on Eel river, and the Unionists now out on strike at that plant and the nearby woods, a disagreement, in the end, resulted. The conference lasted little more along than have the lines in which the Redwood timber operators and the Unionists have engaged in, as the discussion with the Eel River Company did get a taking up of wages and a figure of $1.05 minimum (common labor) and $1.87½ for saw-filers was offered.

**Split On Closed Shop.**

However, when it came to accepting the "Closed shop" the mill management refused to accede to the demands. The Unions held out for what they term a "Union" shop, but which the mill owners insist is a "Closed" shop.

## BIGGAR, BURNS AND LEA HAVE DONE MUCH FOR MENDOCINO

### Fort Bragg Contributor Outlines What Has Been Acomplished For The North Coast Section

The following appeared in the last issue of The Fort Bragg Advocate:

"Being personally aware of your deep interest and untiring efforts in support of any worthy cause with a direct bearing on the future development and preservation of the natural resources and potential assets of the Mendocino coast, I am taking the liberty of submitting the following facts for your approval and hope you will pass these same facts on to the general public."

The article is contributed by a Coast resident.

**Use Your Votes.**

"The forthcoming primaries are of especial importance to us on the North Coast, because here is our opportunity to really prove we are united and fully determined in our task of insuring full development and a continued prosperity for our particular portion of the State as a whole. Our combined votes are our strongest weapon in combating elements and persons engaged in trying to retard progress in our Mendocino Coast economy.

**Projects At Standstill.**

"A couple of years ago we were engaged in an all-out war and the future of our whole existence was a bit wobbly. Locally we were in need of many improvements. Our harbor at Noyo was actually in need of dredging. The bridge needed replacing. The Shoreline Highway needed many improvements. The Willits road was in a sad state of disrepair. Nothing was benig done about reforesting our timberlands. In short, things were at a standstill. We were prosecuting an all-out war and in need of many things with which to do it successfully.

**Then Came Teamwork.**

"Through the combined efforts of the Fishermen and the rest of us, with Senator George M. Biggar, Congressman Clarence F. Lea and the North Coast Council of the State Chamber of Commerce and its manager Bob Moir, we got the Harbor dredging all ready to go.

**Then They Repeated.**

"Again, with our united support working through the Noyo Fishermen and the Fort Bragg Chamber of Commerce, these same men and agencies were successful in getting a new high-level bridge across the Noyo. The case and the urgent need for a new bridge was presented to the War Department by the Fishermen and the Chamber of Commerce with the active and efficient help of Bob Moir and John Harman. It was principally through the efforts of Senator George M. Biggar a high level bridge was decided upon.

"Through the activities and the respect in which our National Congress has for Representative Clarence F. Lea, Congressman Lea was enabled to include in the National Rivers and Harbors Bill a direct appropriation for the improvement of Noyo Harbor. Our combined support, with that of Senator Biggar, Clarence F. Lea again made an effort. From the foregoing it would begin to appear our teamwork is beginning to get results.

**Again It Was Biggar.**

"Through the combined efforts of Local 2610, the Advocate and News, the Chamber of Commerce and practically everyone of us on the coast, a petition was printed, circulated and signed—relative to improvement of the entire Shoreline Highway. Senator George M. Biggar and Assemblyman Michael Burns threw their influence and prestige behind the petition for definite action, with the result of our getting direct and definite appropriations amounting to millions of dollars for realignment and improvements to the entire Shoreline Highway. It was Mike Burns and Senator George Biggar who had the special committee on Highways include the Shoreline Highway on their trip of inspection. Consequently, we have the assurance of Senator Collier, Chairman of the Committee, that everything his committee can do will be done for us."

## BELOVED NURSE BECAME BRIDE

Present at the ceremony were Mrs. Lillian Conroy, daughter of Mrs. Nichols, and small Barbara Conroy, the bride's granddaughter; Mrs. Henry Brown, mother of the groom, Miss Blanche Brown, his cousin; Mrs. C. L. Goodenough and Mrs. Ada Hartly. The bride was lovely in a turquoise blue suit with white accessories and gardenia corsage.

They were unattended. White roses were used to decorate the parsonage. Following the ceremony they left immediately by motor for a week's honeymoon of unannounced destination. During their absence Mrs. Conroy and Barbara will live with Mrs. Henry Brown, who is not well enough to be left alone.

**Plan A Reception.**

Following their return they will reside at the Brown home in Philo and, commencing May 27, Mrs. Brown will maintain office hours at her former Boonville residence from 10 a.m. to 1 p.m. week days. **Aviator Forced Down.**

An airplane was forced down for lack of fuel about 3:30 Friday afternoon in the Philo section and landed in a 20-acre field belonging to A. W. Clow, which is across the highway from the Valley Store, owned by W. F. Clow. The pilot was alone in the plane and his radio was out of commission and overcast skies prevented him from keeping on his course. He was from Oakland airfield. As aviation gas is not available here a supply would have to be brought in before he could take off.

**Recalled Birthday.**

Mr. and Mrs. E. N. Knivila entertained in honor of the birthday of their son-in-law, George Stearns, Friday evening. Their guests included Mrs. E. S. Lemon, Mr. and Mrs. J. T. Farrer, Mr. and Mrs. E. ### CIRCUS COMING

Clyde Beatty's Three-Ring Circus will be here Friday, May 31, and hearts of boydom are happy. A. R. O'Brien made arrangements with the Circus to permit the boys at The Albertinum to see the show.

## PLAN BAZAAR FOR THE BOYS

### Evening Events For The Albertinum June 7, 8, 9

The Dominican Sisters at the Albertinum Boarding School are most anxious to give their senior boys the pleasure and benefit of Manual Training shops where leisure hours may be spent in following vocational trends and talents under competent supervision and guidance. The junior boys and girls are also in need of an adequate playground with the necessary equipment. At present the little lads are actually forced to play in the streets for lack of space and this constitutes a real hazard and is a source of constant anxiety to the Sisters whose only concern is the happiness and well-being of their small charges.

**Must Aid Themselves.**

Owing to a large standing building debt, the above projects are impossible of attainment without the assistance of generous friends and benefactors.

**To Hold Bazaar.**

On the evenings of June 7, 8 and 9, a Bazaar will be held on the School campus and all are cordially welcome. There will be no entrance charge. Donations of canned goods, cakes, pies, toys or novelties will be gratefully accepted. Please phone Sister Superior, Ukiah 210, and a car will call for any of these articles.

Sen. Jerrold L. Seawell

SENATOR JERROLD L. SEAWELL has visited Mendocino county. This, for him, should be a good section to campaign in. His forebears left a distinguished name for the Seawells here and Jerry Seawell descends from the family of which Senator J. H. Seawell was a prominent member, as was the lamented Judge Emmett Seawell. They well served Californians, as has Senator Jerrold L. Seawell, in the position of Senator for years and as he will continue to serve, all the people, when he becomes member of the State Board of Equalization.

Former Associate Justice of the California Appellate Court H. L. Preston is head of the Committee in Mendocino county working to bring about the election of Senator Seawell as a member of the State Board of Equalization and he unqualifiedly endorses Senator Seawell as one infinitely well equipped for Board membership because of Senator Seawell's thorough knowledge of State finances, taxation needs and understanding of State laws covering the work of the Board of Equalization.

Herbert J. Waters, editor of The Santa Rosa Press-Democrat, has sent out instructions to northern California editors to support L. G. Hitchcock, against whom this newspaper has no quarrel, but the arguments the Santa Rosa newspaperman advances — that Mr. Hitchcock has held the offices of State Highway Commissioner, to which post he was named by the unspeakable Culbert L. Olsen, and City Attorney of Santa Rosa — mean little in registering how Mr. Hitchcock stands with the voters today. Both the Highway Commissionership and the office of City Attorney of Santa Rosa were appointive positions. There is but one instance, insofar as this page has knowledge, when Mr. Hitchcock contested before the people for an elective job and that was when Mr. Hitchcock ran for the office of joint Assemblyman for Sonoma and Marin counties against Richard H. McCollister and, in that test of popularity, Mr. Hitchcock was decisively defeated. On the other hand Jerry Seawell has many times gone before his constituents for approval of his official record and for re-election and each time the voters have returned him with the stamp of "well done."

## IT'S UP TO GOV. WARREN

ISSUES WERE CLEARLY DRAWN in California's gubernatorial campaign as incumbent Earl Warren attempted to stave off the rush of Attorney General Robert W. Kenny in the last two weeks remaining in the race..

General Kenny has concentrated on five issues in which he charges Warren with "planlessness." The issues are:

**1.—That Warren's "planlessness" has left Californians and new citizens of this state houseless and homeless, with no adequate program for relieving the housing shortage.**

**2.—That the incumbent governor has lined up on the side of the large landowners and power monopolies in the Central Valley Project.**

**3.—That the incumbent governor has neglected to prepare for 600,000 already unemployed in this state with an estimate of 1,000,000 jobless by next fall.**

**4.—That "planlessness" finds 120,000 returned veterans vieing for 48,000 seats and facilities in state and private colleges and universities, mostly now occupied by non-service youngsters.**

**5.—That the incumbent failed to cut the cost of state government or adopt the Keesling report for streamlining the state administration, combining seven tax collection agencies into one and centralizing pre-audit and post-audit.**

General Kenny injected the fight against inflation into the campaign when he flew to Washington, D. C., to file a statement with the Senate Currency and Banking Committee, protesting the amendments crippling the OPA.

Taking to the radio, General Kenny warned California listeners what the scuttling of the OPA would mean to their war bonds, savings and current pay-checks.

Thousands of telegrams from California flooded Congress, backing up General Kenny's stand.

## LITTLE EXCUSE FOR GAME LAW VIOLATIONS

(The Mendocino Beacon)

Infractions of the Fish and Game laws caused arrest of five different visitors over the weekend. Four of these were for taking abalones and one for spotlighting deer and hunting out of season. We believe all capable of taking abalones surely are familiar with the laws concerning them, and it is an easy matter to measure the abalone when it is removed from rocks. Seven inches across the long way, and 10 is the bag limit. Spotlighting deer is inexcusable and there is a severe penalty for any one caught in this act. Not only will a heavy fine and jail sentence be imposed but lights and firearms confiscated as well. We have a grand outdoor country and it is up to us to see that it is taken care of for future generations.

## RATTLESNAKE BITE KILLED LAKE CO. MAN

(The Lakeport Press)

Poison, the result of a rattlesnake bite, caused death of George Berg, of Middletown, Saturday night at the Lake County General Hospital. He was bitten by the snake about 9 o'clock in the morning. According to reports, Mr. Berg saw the snake starting into a hole in the ground and caught it by the tail pulling it out. Immediately the snake struck, hitting Mr. Berg in the right arm. The unfortunate casualty occurred on the Len Noble ranch, on the Cobb Mountain road, where Mr. Berg was staying. He gave himself first aid and then went to Middletown and reported what had happened. Mr. Noble and Supervisor James Tocher persuaded him to let them bring him to Lakeport. On his arrival at the hospital his condition was very serious and he was suffering immensely. Efforts to save his life proved futile, due to the time which elapsed before the man reached medical aid.

## WILL WOULD REMOVE ALCATRAZ FROM BAY

Representative Franck Havenner said today he would ask the Justice Department to remove its federal prison from Alcatraz Island in San Francisco Bay because it is a "menace to the area." "The center of a highly metropolitan area is no place for the country's worst criminals," he declared. Congressman Havenner pointed out the island, scene of a recent three-day prison riot, was virtually in the geographical center of the San Francisco Bay region. He said he would be joined in the appeal by other Congressmen from the area, Democratic Representatives Geo. Miller and John Tolan, and Republican Representative Richard Welch. Mr. Havenner introduced a bill to authorize the treasury to pay $15,000 to families of the two Alcatraz guards, Harold P. Stites and William A. Miller, who were killed during the prison siege. The bill said the guards "displayed extraordinary heroism."

## To The Voters of Mendocino County

Ukiah, Calif., May 18, 1946.

Being obliged by my attention to the tremendous pressure of the existing heavy work schedule of the County Survyor's office to forego making personal contacts about the County, and conscious voters should know the qualifications of their candidates, I am using the medium of local press for a brief statement.

Born in California of pioneer stock, Mendocino schools gave me elementary and high school education and Stanford graduated me in Civil Engineering; following which I had extensive experience in Land Surveying and Engineering both in San Francisco and rural districts. I began service for Mendocino county in 1935, under the late Ed Smith on the Rockport-Leggett Valley Road survey, following through minor roads to the Longvale-Dos Rios job as resident engineer.

Appointed, without a suggestion from myself, in 1943 to fill Mr. Smith's place, I at once made application for registration as Civil Engineer, which registration was granted after due examination. Carrying on with little help during the war years, I was given a part in the formulation of the County's program of postwar projects, results of which program are now about to be realized with my recently developed personnel of helpers. The currently available State and Federal aid to Counties, under varied set-ups, has required a much higher standard of engineering for the County, as well as increased amounts of engineering service, the term "County Surveyor" becoming hardly adequate. As regards your joint County and State and Federal aid programs we have had the very highest degree of co-operation from the engineers of the higher agencies in our effort to meet prescribed standards in preparation of plans and surveys.

**To any veteran, who may, as such, be interested in County Engineering, I submit that both of my sons and one daughter's husband are veterans; that I applied for enlistment in World War I and passed the examinations for commission as First Lieutenant.**

On June 4th Mendocino County has the opportunity of continuing in office a technically qualified Engineer with an established knowledge of County-wide needs.

Very respectfully

R. W. CUMMINS

## Sidelights of Sadness

**Being incidents connected with California's State Prisons as observed by A. R. O'Brien, editor of The Republican Press, while chairman of the State Board of Prisons of California**

### THE LOOSING OF MURDER INMATES

In 1936 Jerome Von Braun Selz was found guilty of murder of a widow, Mrs. Ada French Rice, of Woodstock Glen, San Mateo county, and was sentenced to life imprisonment. Instead of having been sent to a first security penitentiary like Folsom The Adult Authority, as the Parole Board has for the past four years been unnamed, evidently applied the Warden Duffy classification to the killer of the old lady and he was sent to Chino. Now the State Prison at Chino could hardly restrain a humming bird, if the humming bird exerted any inclination to leave there. There is no restraining wall at Chino. The guardposts are so far apart it would take a spyglass to spot them. There are no separate cells, it is dormitory built, and Governor Culbert L. Olson refused to permit the Republican Prison Board to build a security wall about the prison. There is a riot fence around the one-time farm, but it was built by WPA labor and can be depended upon about as much as one can depend upon any of the New Deal bulwarks, but let us get back to Ralph Jerome Von Braun Selz. Somewhere along the line of classifications and, instead of being sent to Folsom, as a murderer of an old woman should have been, the Adult Authority lost track of the murderer after he had been at Chino and, some months back, the killer of the aged widow, as a great many of the convicts sent to Chino do, turned up missing. Last week military authorities sent word to the Adult Authority a man known in service as Canadian Army Sergeant "Tiny" Morgan was, in reality, Ralph Jerome Von Braun Selz, the man who, with a poker, beat to death the aged California woman and at the same time attempted to cremate her corpse. Apparently the murderer had been in Canadian service some time, as he had been advanced to the rank of Sergeant in the Northern forces where Army companions of Selz-Morgan reportedly did their utmost to free him from the criminally active themselves.

charges, but he will be extradited this month, according to District Attorney Ferrell, of San Mateo county.

The careless manner in which murderers are shifted around by the Adult Authority of California is illustrated by the facts developed in the case of the man who beat this old lady to death with a poker and was supposed to be serving a life term in a security prison but who, in reality, had been allowed to stray away from a place where there were no restraining walls.

There will come a time in California when a man committed to life for killing a woman will be called upon to do more than join one of Warden Duffy's Glee Clubs or write articles in the San Quentin Puffer, lauding the Warden for a few months to expiate punishment for a brutal killing. A murder conviction and sentence should mean something, if the crime wave now predicted about to occur in the State is to be met. Surely a man in the healthy condition indicated Selz-Morgan was able to pass enlistment examination in the Army—and who, a short time before he escaped, after savagely beating and burning to death an aged woman, is not a good risk for an Adult Authority Board to turn loose on society. Of course no one wishes to force any cruel treatment on any prisoner, but no argument can be advanced to support the overlooking of a murderer a jury had found guilty of, and a court had sentenced to serve a life term in prison, yet, here we have one who was able to walk from his supposed incarceration place after having been only semi-confined a few weeks! The more instances in which murderers find prison authorities condone crime, without trying to punish, the more new crimes will develop and make work for officers who are trying to protect society. The present administration is claiming we have to build more prisons in California. That is not what is needed—the point is to keep the criminals once convicted in restraint until they have served their terms, instead of letting them wander off and incite others to commit new crimes or get criminally active themselves.

*FACTS* about the
REDWOOD STRIKE

# How the Redwood wage offer compares with increases in other Major Industries

A comparison of *present* wage rates in other large industries in which labor disputes have recently been settled and the increase in wage rates in those industries since V-J Day, as compared with wage rates and increases in the Redwood lumber industry since V-J Day, reveals that Redwood rates, with the 15c per hour offer included, are among the very highest in the nation.

## THIS TABLE TELLS THE STORY

| | Average straight time hourly rate; V-J Day | Average straight time hourly rate, including increases since V-J Day |
|---|---|---|
| All Manufacturing (U. S. as a whole) | * .933 | ** .971 |
| General Motors Co. | 1.119 | 1.304 |
| Meat Packing Industry | .802 | .962 |
| General Electric Co. | .995 | 1.18 |
| U. S. Steel Corporation | 1.14 | 1.325 |
| Redwood Industry | 1.17 | 1.32 (with employers' 15c per hour offer added) |

Source: Reports of Fact Finding Boards and U. S. Dept. of Labor Statistics.
* Report of July 1945 ** Latest report, February 1946

## COMPARISON WITH THE PRESIDENT'S NEW WAGE POLICY:

The theory of this policy is to bring about wage increases sufficient to match the increased cost of living since January, 1941 (this is approximately 33%).

The 15c per hour increase offered all employees by the Redwood employers (totaling $1.32, as shown in the above table) means that, on the average, wage rates in the Redwood area will provide an increase of 82.3% over January 1941 rates.

This is almost *three times greater* than the Government's figure of the increase in the cost of living for the same period.

## COST OF 17 WEEKS STRIKE

Loss to Employees and Communities: (Payroll), $2,960,900

Loss to the Nation: 136,000,000 board feet of Redwood lumber—enough to supply the average quantity of Redwood used in constructing 68,000 normal family dwellings.

## LOVELY HOME WAS SETTING FOR CULTUS MEETING

The Cultus Club was entertained by Mrs. Robert LeBaron at her Talmage home Tuesday. The members enjoyed a program given by Mrs. George Butler on "Finger Painting." Mrs. Butler outlined the beginning of finger painting as started by Ruth Shaw, who used it for a means of expression of young children. The idea has grown and is included in the hobbies of all ages, and has practical uses, as well as offering entertainment, in the making of gift wrapping papers, designs for book covers and wall hangings. The idea is also being used in the Veterans Hospitals in rehabilitation work. Mrs. Butler exhibited pictures executed by children as young as four years which showed definite designs and picture material, and also demonstrated some of the work before the Club. The artistic bouquets arranged by Mrs. Le Baron made the beautiful home most attractive, which included a unique arrangement of sweet peas, carnations, coral bell and lilies of the valley in an "old glass" tier dish, and a vase of blue delphinium, which blended with the blue table lamp and ceramics. The next meeting will be the final meeting of the Club year and will be an installation dinner at the home of Mrs. Dorothy Schilder, with Mrs. Ruth Balyeat, dinner hostess, and Mrs. Bess Jamison, program hostess.

## NATIVE SONS OF MENDOCINO WILL ATTEND

From Ukiah and other towns and communities of the county will go members of the Native Sons of the Golden West to take part in the 69th anniversary which is taking place at Hoberg's, Lake county, this week. The first day's program was devoted to introduction of resolutions that kept the Order abreast with the unprecedented postwar development of the state. "However," said Grand President Richard F. McCarthy, of Piedmont, "we must not forget the year 1846 might be called the 'year of manifest destiny' when the United States virtually grabbed the territory of California out of the covetous hands of England, Russia and France. Many important centennials occur in 1946, and the Native Sons will assist in their proper observance. Some of them are the raising of the Bear Flag at Monterey July 7, at San Francisco on July 9, at Sutter's Fort on July 11, at San Diego by Captain John C. Fremont on July 29, at Los Angeles on August 13, all of the same year. Also to be observed is the centennial of the Donner Party and the Battle of San Pascual. We shall make these centennials part of our first order of business." The Grand Parlor banquet will be tonight, with Governor Earl Warren, a member of Fruitvale Parlor, principal speaker. R. G. Power, of Colusa, is slated to succeed President McCarthy as Grand President in an election which will take place tomorrow. Peter T. Conmy, of Oakland, and Bernard G. Hiss, of Los Angeles, have announced their candidacy for Grand Third Vice-President in the hottest contest of the meeting, for the winner begins an automatic succession to the Grand Presidency.

# "UNCLE DICK" COLLINS SUPPORTING THE L. G. HITCHCOCK CANDIDACY

(The Woodland Democrat)

Richard E. Collins, of Redding, veteran chairman of the State Board of Equalization, decided, upon the advice of his personal physician, against seeking re-election to an eleventh consecutive term as board member from the Third district.

Undoubtedly Mr. Collins, who is 73 years old and in failing health, was wise in heeding his doctor's advice. Nevertheless, the people in the Third Equalization District, comprising the north coastal, mountain and upper Sacramento Valley counties, regret his decision to retire.

For 40 years Dick Collins, as he is affectionately known, has served the public faithfully and well. He devoted himself to the important duties entrusted to him and throughout his long political career Dick's word has been his bond.

Collins may have withdrawn from the business of soliciting votes for himself, but, fortunately, he is not going to sit silently on the sidelines and watch the political parade pass by.

This was demonstrated in the endorsements given by Mr. Collins during the week to L. G. Hitchcock, of Santa Rosa, who is seeking to succeed Collins on the Equalization Board, and to James Quinn, of Oakland, who is a candidate for re-election to the board in the Second, Sacramento, district.

True to type, Mr. Collins, a Republican, did not hesitate to recommend Mr. Hitchcock to the First district voters simply because the latter is a Democrat.

L. G. Hitchcock

In his endorsement of Mr. Hitchcock, Chairman Collins said:

**"I had no fixed opinion at the start of the campaign as to the three men running for my job on the board. But after studying their qualifications and having knowledge of the people who are supporting them, I have come to the conclusion L. G. Hitchcock is the candidate best qualified to fill the position. I feel I can do no less than endorse his candidacy."**

That is being honest with himself and fair with the electors of the Third Equalization District.

## NEWSPRINT SHORTAGE THREATENS THE COAST

Pacific coast newspapers are facing possibility of being forced to cut the size of their papers by as much as 50 percent within the next three weeks if the loggers' strike in British Columbia, which started Wednesday, continues for any length of time. The large pulp mills of the Canadian province, which supply both large and small papers in Canada and on the west coast, still were operating, but their officials estimated production would be halted in approximately three weeks when present supply of pulp logs ends.

The loggers struck after seven weeks of negotiations on demands for wage increases, shorter hours and recognition of their union. They reduced their wage demands from 25 to 18 cents an hour, but operators of the mills set 12½ cents as their offer. Harold Pritchett, Union district president, said the walkout of more than 37,000 loggers might cause 80,000 other workers in British Columbia to be idled unless an early settlement were reached. He predicted the strike would be the beginning of a drive for shorter hours and improved working conditions throughout the province. The Colorado Springs Gazette-Telegram announced suspension of its Saturday afternoon and Monday morning editions on advice of the firm supplying its newsprint. Officials said they were told, if they "conserve to the maximum possible extent, you can avoid temporary discontinuance of all publication." George Russell, business manager of the Tacoma News-Tribune, said it might be necessary to reduce the paper by 50 percent. A. C. Phelps, production manager of the Oakland Tribune, said that paper had about three weeks' supply of newsprint and might, if the strike continued, have "to cut the paper about in half." "If the strike goes long enough, we'll all be out of business," Frank Webster, business manager of the Seattle Star, said.

## MAY ORGANIZE MILLMEN IN ANDERSON SECTION

An attempt is being made by Union organizers from San Francisco to bring the Union into Anderson Valley and organize the men at the various small lumber mills here. Rumor had it a meeting was to be held Thursday evening and workmen were in town in full force but the organizers failed to show up. According to report, valley men are not thinking favorably of the idea, but consider it an attempt to further the interests of the Union in the present lumber strike and think that, if the local men vote to form a Union, local mills will be closed and lumber shipments from this section cut off, which, of course, would be favorable to the Union interests. Another point, besides prospects of an idle summer the men are considering is that, if they vote for the Union, they also vote for a cut in wages as local mills are paying above the Union scale. Many of the men concede the Union will eventually come in, when construction of proposed larger mills is completed, but, they do not favor voting themselves out of a job at the present time, merely to assist the Union put more pressure on the lumber industry that is now refusing to come to their terms on the "Closed shop" issue.

**GOOD SELECTION**

## TWO MINERS KILLED; THREE ARE INJURED

Two quicksilver miners died in Colusa Memorial Hospital Sunday from burns and injuries received in a methane gas explosion at the 400-foot level of Abbott quicksilver mine in Lake county. Three other miners were injured and are patients at the hospital. The dead are W. S. "John" Johnson, 49, and Lee W. Lawson, 45, who both resided at Clearlake Oaks. The injured are: Joseph Bader, Al. J. White and James Bernach. The mine superintendent said the five men were engaged in timbering in a drift far back in a tunnel of the 400-foot level, establishing a ventilating outlet to rid the mine of gases, which naturally form at the low levels. The five men were in advance of the regular crew when a spark caused the explosion. When the underground gas was ignited a sheet of flame swept the tunnel and the force of the explosion blew the men against the rock and timbers. Despite their injuries and burns they were able to walk to the cage and were immediately brought to the surface in the mine lift, placed in cars and rushed at top speed to Colusa.

## JACK GOSS BUILDING A LARGE WAREHOUSE

With the arrival of the first shipment of steel this week, construction started Monday on Jack Goss' new steel warehouse at the corner of Francis and Magnolia avenues, Murray Park, Larkspur. The $12,500 Butler-type building will contain storage space for Mr. Goss' moving business. Covering a 40 by 100-foot area, the building will be completed in 12 days by six workers, Mr. Goss estimated. For years "Jack" Goss represented a major oil company in Ukiah and is known and well-liked in this section.

# A Dairy Industry Leader Endorses Congressman Lea

A prominent leader in the dairy industry yesterday added weight to endorsements of Congressman Clarence F. Lea for re-election by urging Lea's nomination to both parties at the primary election.

Congressman Clarence F. Lea

The latest backing came from Robert E. Jones, editor-publisher of the Pacific Dairy Review, who declared:

"No congressional district in America is more fortunate than the First District of California which has as its representative, Hon. Clarence F. Lea, of Santa Rosa.

"Representative Lea has had a long and notable career in congress. He is able, courageous, a man of high integrity, knowledge of his state and district, and is one of the half dozen most respected and influential men in the lower house.

"The dairy industry, which is very important in the First District of California, knows very well the many times Mr. Lea has been of inestimable help in Washington.

"He is head of the California delegation in congress and is chairman of the most important committee on interstate and foreign commerce.

"There are thousands of leaders in California agriculture, regardless of party, who hope that Mr. Lea will be returned to office at the primary.

"California and the nation cannot afford to lose the services of Mr. Lea."

## UNFOUNDED CHARGES MAY CAUSE LAWSUIT

(The Mendocino Beacon)

Harry Lawson, who was held in the county jail five days pending an investigation of the loss or misplacement of $247 at the M. J. Pellascio office has been released and is home on the southcoast. There was no evidence against Mr. Lawson, who served overseas three years and was released from service last February, and has worked in a restaurant here since. Point Arena has had several robberies the last two years one or two cleared up and one or two hushed up. It's rather a serious charge to make against a man if you haven't the evidence to follow it up. This is the second time within two months that money has been missing at the Pellascio office.

# SENATORIAL APPROVAL OF SENATOR GEORGE M. BIGGAR

Senator Randolph Collier, of Yreka, has authorized the following approval of Senator George M. Biggar, of Lake and Mendocino counties, who is seeking renomination:

"It is with pleasure to be able to let the public know how much I, as one member of the California Senate appreciate the good work you have done in the State Senate the past eight years. I feel sure your district is proud of your representation. The members of the Senate apprceiate your sincere, hard work. I do not believe any District in California has a better thought of representative than has Mendocino and Lake counties and I heartily endorse and hope for the return of Senator Biggar to the California Senate.

## FROM THE EEL TO THE PACIFIC OCEAN

Two ex-Navy men, King Armstrong and Dave Craldi, of Sonoma, left Eel River Lodge in a 16-foot canoe destined to reach the Pacific Ocean. According to Wilbur Sharp, their ship is a trim boat, well arranged for the long and dangerous trip. Mr. Sharp is an old Navy man and knows sea matters thoroughly and is betting on the boys making their voyage safely, but with a lot of thrills. The two young men have made the Russian river to the sea trip before. They have had tough experiences in the Islands and are seasoned sailors and fought in the heavier engagements in the Pacific. The venturesome pair are in business in Sonoma.

There is nothing so inconvenient and disappointing as trying to get along with an old fashioned, under-size water heater. You are ready for your bath, you turn a faucet and the water runs from lukewarm to cold.

Avoid hot water shortage in your home by putting in a modern full-size electric water heater. Think ahead to future needs that call for a greater supply of hot water instantly on tap.

For example, you may be planning to buy a new Automatic Washing Machine and Electric Dishwasher. Then you will need to have an Electric Water Heater of at least 40 gallon capacity. It costs but a little more to have a reserve supply of hot water always on tap. You'll be more than repaid by the time and peace of mind it will bring.

Be sure the new automatic water heater you buy is "sized-up" to your family needs.

## AMERICAN LEGION UNIT IS PROGRESSING WELL

The American Legion Veterans' band and drum corps reports progress. This new unit, organized and under direction of Past Commander Doc. Roberts, is showing results. Prospects for an outstanding community service organization are excellent. Quoting Director Roberts: "Therein lies an opportunity for students to keep up their music practice during the vacation weeks." The Band will have regular weekly practice throughout the year. All players, young and old, are cordially invited to attend these gatherings. Practice nights will be the first and third Thursdays, and second and fourth Wednesdays of each month, in the Veterans Memorial Building. ## WOULD BLOW UP THE HEALDSBURG BRIDGE

Pursuing a fantastic and probably vagrant idea, three boys who had been employed at Annapolis, Mendocino county, by the State Forestry Department, stole sticks of dynamite from the tool chest of a forestry official, with, it is said by police, the intention of blowing up the Russian river bridge at Healdsburg, the span the Northwestern Pacific Railroad Company uses. The plot was not carried out because Clifford Anderson discovered the dynamite and reported his find to Chief of Police Simpson. The boy who cached the explosive, Bernard Silva, of Santa Rosa, was detained at police headquarters and upon interrogation said his comrades in the plan were Roy McGinnis and Floyd McNatt, who live near Windsor. Their plans were not completed because they neglected to get caps to explode the dynamite when they left the Annapolis forestry camp.

He reports the youth was not traveling at a fast rate of sped, but not being familiar with the vehicle, "froze" when he realized he could not make the turn.

**SATISFACTORY ENDING**

## SITE SELECTED FOR A CAMP FOR TRANSIENTS

The supervisors met with a committee, consisting of Roy Yarbrough, Howell Brown and Wm. Peters, in connection with housing transient labor during the harvest season. A proposed site for such housing, west of the county hospital, was inspected by board members and said piece of land was ordered sold at public auction on May 23, 1946, at 2 p. m., it being no longer needed for public use, after notice given as required by law.

From where I sit ... *by* Joe Marsh

**Thad Phipps and the Garden Party**

Thad Phipps' wife finally got him to the Ladies' Flower Club Lawn Festival and Garden Party.

At first Thad was mighty uncomfortable in his Sunday best, making polite conversation with the ladies, nibbling on watercress sandwiches. Until Milly Harztell comes up with a tray of ice-cold beer in frosty glasses.

"I suppose," says Milly slyly, "you'll think beer's a sissy drink." "Sissy drink!" says Thad emphatically. "Just because it's mild and moderate doesn't make it sissy! Beer's a *man's* drink!"

And then Thad sees that half the ladies there are sipping beer, as well as those who've chosen lemonade and cider, and he mutters: "I reckon it's a ladies' drink, too."

From where I sit, more and more people are realizing, like Thad, that beer doesn't belong to any special group or occasion—it's a wholesome American beverage that belongs wherever folks enjoy good taste and moderation.
